

SP **Field of Dreams Environmental Awards 2015**

Since 2011 Brian and Denise Herrick have created the Field of Dreams the largest display in the UK of worldwide wild annual flowers, attracting over 4500 visitors per year, hopefully bringing abundant trade to the village shops and traders.

Both Brian and Denise are passionate about retaining the wonderful countryside that surrounds the village of South Petherton but also to protect and retain the inner village environment as a place for nature to thrive.

So this year will see the launch of the Field of Dreams Environmental Awards given to local parishioners within the South Petherton parish who have been nominated under the following categories and chosen by a panel of experts:

SP Young Parish Environmentalist of the Year

We looking for an outstanding youngster who has contributed in their own way to enhance the parish environment.

SP Best Parish Environmental Gardener of the Year

Here we we're hoping to receive nominations for gardeners whose work helps promote wildlife and protect nature.

SP Best Parish Farmer or Landowner for Conservation.

We feel sure parishioners will want to put the name forward of landowners and farmers who actively preserve the natural environment.

SP Best Parish Contributor to the Environment

Anyone in the parish can be nominated here who through their activities have helped make South Petherton a better place for nature.

(Nominations must be received by 31st. December 2015)

Please complete the nomination form on this page providing details of your local charity and your funding requirement and send to:

**'Field of Dreams Environmental Awards
Barcroft Hall
North Street
South Petherton
Somerset TA13 5DA**

We would like to take this opportunity to thank everybody who has supported this project, with best wishes Brian & Denise Herrick
